

Mission Statement

We would like Belmont to be a safe place, where pupils, staff, parents and the community work together in an atmosphere of mutual respect, to achieve the full potential of all individuals in the context of well-ordered, happy and purposeful learning environment.

Rationale

PSHE education is a school subject through which pupils develop the knowledge, skills and attributes they need to keep themselves healthy and safe, and prepared for life and work. Well-delivered PSHE programmes have an impact on both academic and non-academic outcomes for pupils, particularly the most vulnerable and disadvantaged (PSHE Association, April 2020). We encourage our pupils to play a positive role in contributing to the life of the school and the wider community. In doing so we help develop their sense of self worth. We teach them how society is organised and governed. We ensure that they experience the process of democracy in school through the School Council. We teach them about rights and responsibilities. They learn to appreciate what it means to be a positive member of a diverse multicultural society.

Aims and Objectives of PSHE and RSE

Under the new guidance issued by the DfE, by September 2020, Relationships Education at primary school will be compulsory. RSE should always be taught within a broader PSHE education programme if it is to be effective. RSE includes topics such as anti-bullying; keeping safe on and off line; keeping physically and mentally healthy, learning about drugs, alcohol and tobacco; and the development of skills and attributes such as communication skills, managing peer pressure, risk management, resilience and decision making. The aims of personal, social, health and citizenship education are to enable the children to:

- Promote the spiritual, moral, cultural, mental and physical development of all pupils.
- Prepare pupils for the opportunities, responsibilities and experiences of later life.
- Encourage pupils to value themselves and others.
- Allow pupils to acknowledge and appreciate difference and diversity.
- Teach pupils how to make informed choices.
- Prepare pupils to be positive and active members of a democratic society.
- Teach pupils to understand what constitutes a safe and healthy lifestyle.
- Provide a framework in which sensitive discussions can take place.
- Promote safety in forming and maintaining relationships.
- Provide pupils with a toolkit for understanding and managing their emotions.
- Provide pupils with the opportunities to consider issues which may affect their own lives and/or the lives of others.
- Help pupils to identify the characteristics of healthy relationships, how relationships may affect mental and physical health; and how to stay safe online.
- Prepare pupils for puberty, and give them an understanding of sexual development and the importance of health and hygiene.
- Help pupils develop feelings of self-respect, confidence and empathy.
- Create a positive culture around issues of sexuality and relationships.
- Teach pupils the correct vocabulary to describe themselves and their bodies.

Statutory Requirements

The Department for Education is introducing compulsory Relationships Education for primary pupils and Relationships and Sex Education (RSE) for secondary pupils from September 2020. Also, from September 2020 it will be compulsory for all schools to teach Health Education. Through these subjects, we want to support all young people to be happy, healthy and safe – we want to equip them for adult life and to make a positive contribution to society.

RSE (PSHE) and Citizenship Policy Statement

We have committed to retain our current choice to continue to teach age-appropriate sex education alongside relationships education. In doing so, we have regard to guidance issued by the Secretary of State as outlined in Section 403 of the Education Act 1996.

Policy Development

This policy has been developed in consultation with staff, pupils and parents. The consultation and policy development process involved the following steps:

1. Review – the PSHE Co-Ordinator, pulled together all relevant information including relevant national and local guidance
2. Staff consultation – school staff were given the opportunity to look at the policy and make recommendations.
3. Pupil consultation – we investigated what exactly pupils want from their RSE and PSHE lessons via a pupil survey
4. Ratification – the policy was shared with and reviewed and approved by the full Governing Body.

Definition

RSE is about the emotional, social and cultural development of pupils, and involves learning about relationships, sexual health, sexuality, healthy lifestyles, diversity and personal identity. RSE involves a combination of sharing information, and exploring issues and values. RSE is not about the promotion of sexual activity.

Delivery of PSHE and RSE

RSE is taught within the personal, social and health (PSHE) education curriculum. Some biological aspects of sex education are taught within the science curriculum, and other aspects are included in Religious Education (RE).

RSE focuses on giving young people the information they need to help them develop healthy, nurturing relationships of all kinds including:

- Families.
- Respectful relationships, including friendships.
- Online and media.
- Being safe.
- Intimate and sexual relationships, including sexual health.

These areas of learning are taught within the context of family life taking care to ensure that there is no stigmatisation of children based on their home circumstances (families can include single parent families, LGBT parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures) along with reflecting sensitively that some children may have a different structure of support around them (for example: looked after children or young carers).

Pupils also receive stand-alone sex education sessions delivered by school staff and trained health professionals.

Curriculum

We have developed the curriculum, taking into account the age, needs and feelings of pupils. If pupils ask questions outside the scope of this policy, teachers will respond in an appropriate manner so they are fully informed and don't seek answers online.

We have developed our own PSHE scheme of work for Years 1-6, which incorporates the Curriculum4life Scheme, SEALs Scheme, Lucinda and Godfrey Scheme, Global Dimensions Scheme and Drugs and Alcohol lessons and resources.

RSE (PSHE) and Citizenship Policy Statement

This curriculum is in line with and informed by the DfE Relationships Education, Relationships and Sex Education (RSE) and Health Education statutory guidance and the PSHE Association guidance document.

Our RSE curriculum is set out as in Appendix 1 but may need to be adapted as and when necessary.

Roles and responsibilities

The Governing Body

The governing body will approve the RSE policy, and hold the Headteacher to account for its implementation.

The Headteacher

The Headteacher is responsible for ensuring that RSE is taught consistently across the school, and for managing requests to withdraw pupils from non-statutory components of RSE (see section 8).

Staff

Staff are responsible for:

- Delivering RSE in a sensitive way.
- Modelling positive attitudes to RSE.
- Responding to the needs of individual pupils.
- Responding appropriately to pupils whose parents wish them to be withdrawn from the non-statutory components of RSE.
- Staff do not have the right to opt out of teaching RSE. Staff who have concerns about teaching RSE are encouraged to discuss this with the Headteacher.

Pupils

Pupils are expected to engage fully in RSE and, when discussing issues related to RSE, treat others with respect and sensitivity.

Parents' right to withdraw

Relationships and sex education is part of all students' education and it is hoped that all will participate. However, the school acknowledges that, under the DfE Sex and Relationship Guidance for 2020, parents have the right to withdraw their children from the non-statutory components of sex education within RSE up to and until 3 terms before the child turns 16. After this point, if the child wishes to receive sex education rather than being withdrawn, the school will arrange this.

Requests for withdrawal should be put in writing and addressed to the Headteacher.

A copy of withdrawal requests will be placed in the pupil's educational record. The Headteacher will discuss the request with parents and take appropriate action. Alternative work will be given to pupils who are withdrawn from sex education.

Training

Staff training on RSE is included in our continuing professional development calendar.

The Headteacher will also invite visitors from outside the school, such as school nurses or sexual health professionals, to provide support and training to staff teaching RSE.

Monitoring Arrangements

The delivery of RSE is monitored through learning walks, observations and book audits.

Pupils' development in RSE is monitored by class teachers as part of our internal assessment systems.

RSE (PSHE) and Citizenship Policy Statement

This policy will be reviewed annually.

The role of the Subject Leader

- To review and update the PSHE policy.
- To assist in the development of the School Development Plan.
- To report to the Head Teacher and Governing Body about findings and plans to raise standards.
- To plan and lead staff meetings and professional development days.
- To manage the PSHE budget producing a plan for priority purchasing of resources.
- To ensure appropriate INSET is provided for the teaching staff and support staff.
- To liaise with the Inclusion Co-ordinator and class teachers to support planning of work for S.E.N and G&T pupils.
- To liaise with the I.C.T. Co-ordinator to develop the ICT based aspects of the PSHE curriculum.
- To liaise with LA consultants and outside agencies as appropriate.

Equal opportunities

PSHE activities should be planned to encourage full and active participation by all children, irrespective of ability and every attempt made to integrate children with Special Needs as well as those that are more able and talented. Pupils will work in a variety of situations that may include similar ability, mixed ability and mixed gender groupings. Purchased resources will take into account gender and ethnic issues. If necessary, provision will be made for pupils requiring specialist support related to their language or culture. Access to the curriculum for pupils with physical disabilities will be planned for according to each individual need.

Special Educational Needs

General information can be found in the school SEN policy.

Children with SEN are taught within the PSHE lesson and are encouraged to take part when and where possible.

When additional support staff are available to support groups or individual children they work collaboratively with the class teacher.

Behaviour

General information can be found in the school behaviour policy.

Health and Safety

General information can be found in the school policy.

The Governing Body

Subject Leader, Rachel Cook, makes a presentation on the raising of standards about the development of PSHE across the school.

Note

This PSHE and citizenship policy should be read in conjunction with the policies on Behaviour Management, Drug Education and Sex Education.

Appendix 1

2020 PSHE Curriculum

Relationships Education, Relationships and Sex Education (SRE) and Health Education.

Curriculum Expectation	Year Group	Resources/Schemes of Work/Other Curriculum Areas
<p><u>Relationships Education</u></p> <p>Families and people who care for the pupil.</p> <ul style="list-style-type: none"> • That families are important for children growing up because they can give love, security and stability. • The characteristics of healthy family life: commitment to each other, including in times of difficulty; protection and care for children and other family members; the importance of spending time together and sharing each other's lives. • That others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care. • That stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up. • That marriage (available to both opposite and same sex couples) and civil partnerships represent a formal and legally recognised commitment of two people to each other which is intended to be lifelong. • How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.
